KITCHENS CONTRACTS

YOUR KITCHEN  
CONTRACT *partner*

PROUD TO BE A  
STEREOTYPE. *For once.*

Think 'German' and you think efficiency, meticulousness and great attention to detail.

And while we're not fans of one-size-fits-all stereotypes at Nolte Küchen — as our thousands of bespoke kitchen design options attest — we're proud to say this stereotype rings true.

Because since we built our first kitchen in 1955, we've stood for all the things you'd expect from a German company: exceptional quality, sustainability, precision and reliability.

But we're not just about function — we care just as much about perfect form and about inspiring a true feeling of home for our customers. To us, a kitchen must have all three — form, function, feeling — to get the Nolte Küchen seal of approval.

Read on to find out how we bring the Nolte effect to the (kitchen) table — and how we'll help you do the same for your customers.

WE'RE THE ONLY MANUFACTURER-  
OWNED UK CONTRACT SUPPLIER  
FOR NOLTE KITCHENS.

## GOOD ISN'T GOOD ENOUGH.

Reputations, they take a lifetime to build and a day to undo. For the past 70 years, we've taken great care to build ours on quality, beauty, innovation and dependability — across the entire value chain.

That means, from first designs to final fit, you can trust Nolte Kitchens Contracts to deliver an exceptional service, and an even better end result.

How do we guarantee that? Well, we run an

- inspection
- protection
- and sign-off process

with every project — a process which gives you full control, no surprises and a final result exactly as you imagined it (if not better).

## A PERFECT PARTNERSHIP, IT'S ALL PART OF THE CONTRACT.

As the name suggests, Nolte Kitchens Contracts have a dedicated team that deliver just for the contract market, from boutique housing collections to large-scale developments with national house builders.

And while we always promise the highest quality for you and your buyers, our versatility means we can stretch or shrink our service depending on your budget.

We use our decades of experience and the latest software to give our partners full designs, quotations, and comprehensive project-managed installations. So when a developer works with us, they tend to stay with us.

If that all sounds good, we'd love to hear from you.

MORE THAN 99% OF THE  
WOOD WE USE COMES  
FROM CERTIFIED SOURCES

## SUSTAINABLE KITCHENS, *made for life*

We're proud to be a climate-neutral company — an achievement we think is one of our greatest to date. After all, we make 900 kitchens a day and export to over 60 countries, so neutralising our effect on the planet hasn't been easy.

Not that we're resting on our sustainability laurels. We're always scrutinising our processes, using more sustainable materials and finding ways to conserve resources, so we can build kitchens that make life better — for everyone.

### A few of our positive steps towards climate-neutrality:

- More than 99% of the wood we use comes from certified sources.
- We offset CO2 emissions by supporting a project in Uruguay, where a forest now grows where cattle used to graze.
- Like our kitchens, our company lighting comes from sustainable LEDs.
- On average, our particle boards have 50% recycled material.
- We keep a close eye on our 300 suppliers to make sure they're playing fair with the planet too.

WE BRING BRAINS AND  
*beauty to every kitchen.*

Made in Germany to the highest quality, our kitchens cover a huge range of contemporary and classic designs in a host of finishes, textures and colours.

And once you know what style of beautiful kitchen you want, our highly experienced kitchen makers will build them for you efficiently and effectively.

So whether you're a property developer, architect or interior designer, with Nolte Kitchens Contracts you'll give your customers the widest possible choice in the quickest possible time.

## EVERYTHING *and* THE KITCHEN SINK

At Nolte Kitchens Contracts, we offer all you need to make every project go perfectly:

- A dedicated project team to turn around presentations and costings.
- CAD images, video walkthroughs and full M&E plans.
- Dedicated SMSTS, SSSTS and CSCS-certified project managers.
- A specialist furniture delivery team to take all products supplied to the plot.
- Full Corex protection using fireproof sheets.
- Inspection, protection and staged handover sign-off process.
- Storage available to cope with programme changes on site.
- A fully insured team with all health & safety, project-specific RAMS and regular external health & safety assessments.
- A dedicated after-sales team.
- All this, and no up front deposit is needed (subject to credit insurance).

## Our PARTNERS

Creating stunning kitchens is a team effort, and we work with a select few suppliers we trust to make sure every project goes to plan.

### THE BEST KITCHEN BRANDS

Dozens of styles, hundreds of units, thousands of possibilities — whatever your development looks like, we can build a kitchen that suits it perfectly.

We can do this because we work with the world's best kitchen suppliers, including BHS, Miele, Bora, Caesar Stone, Quooker, Sile Stone, Electrolux and many more.

So from worktops to appliances, sinks to final fittings, whatever your kitchen budget or desired design, we've got every kitchen ingredient covered.

### LOGISTICS AND PACKAGING

With over 25 years' experience in storage and deliveries, our logistics partners have the team and infrastructure to make sure your stock is delivered to the right plot, on time — every time.

Their live tracking system means you never lose sight of your stock, wherever it is — saving you time, stress and money. While their FORS accreditation and waste handling licence means they're at the top of the game when it comes to safety, efficiency and environmental protection.

On top of that, they provide site planning, crate rental, environmental disposal and specialist partner agreements.

### HEALTH & SAFETY

We work closely with a highly successful independent health & safety consultancy. They provide effective, user-friendly policies and procedures along with practical assistance with implementing safety strategies.

Working with them means we can cover site-specific RAMS, regular on-site health & safety inspections, company health & safety policies and employee training.

FOR KITCHENS THAT  
WORK LIKE A CHARM,  
LOOK LIKE A DREAM,  
*and feel like home.*
